

Optimizing Health and Delivering Results

OEHN's unique Medical Director Solutions program helps employee and occupational health departments across the country reverse the trend of rising health care costs. OEHN works arm in arm with clients to reduce lost work days, assist in optimizing health and safety programs and provide effective return to work and stay at work programs. Our market segments include...

**Hospitals
Colleges and Universities**

**Corporations
Labor Unions**

**Government
Municipalities**

OEHN's team of Board Certified Occupational Medicine Physicians and Consultants provide PM&R, Psychiatric and Pain Management services.

OEHN's Medical Director Program and Oversight Solutions Team has over 50 years of Occupational Medicine experience. Some Medical Director solutions that OEHN provides, include:

- On-going education within occupational health departments and educational settings
- Disability management and diagnosis of work related injuries and diseases
- Assessment and consultation that ensures a healthier work environment
- Psychological referral services
- Assistance with the development, review and approval of policies and procedures related to occupational and environmental health.
- Remote Medical Director services

OEHN On-Site Health Services Clinical Program Management staff provides on-site health units to organizations throughout the country. OEHN places full and part time Medical Directors and Occupational Health Nurses at numerous hospitals and organizations. Our team of specialists contributes to the reduction of medical costs, lost time, recordable injury rates, and use of outside health care providers.

Some of the on-site health services that OEHN provides:

- On-site Ergonomic programs
- Drug Screening
- Respirator Clearance / Spirometry
- Physicals
